Honorable Greg Abbott, Governor
Honorable Glenn Hegar, Texas Comptroller
Sarah Keyton & John McGeady, Assistant Directors, Legislative Budget Board
Lisa Collier, First Assistant State Auditor

Ladies and Gentlemen:

We are pleased to submit the Annual Financial Report of the State Prosecuting Attorney for the year ended Aug. 31, 2019, in compliance with Texas Government Code Annotated, Section 2101.011, and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in [Governmental Accounting Standards Board \(GASB\) 34](#), the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report* (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact me at (512) 463-1660

Sincerely,

Stacey M. Soule

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

Entity

The Office of the State Prosecuting Attorney is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Agencies.

Due to the significant changes related to Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with general accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the audit of the *State of Texas Comprehensive Annual Financial Report*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

This note is limited to a discussion of only governmental funds to reflect the organization of this state agency.

Fund Structure

The accompanying financial statements are presented on the basis of funds and account groups, each of which is considered a separate accounting entity.

Governmental Fund Types

General Revenue Funds

The General Revenue Fund is the principal operating fund used to account for most of the state's general activities. It accounts for all financial resources except those accounted for in the other funds.

Capital Asset Adjustment Fund Type

Capital Asset Adjustment Fund will be used to convert governmental fund types' capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type

Long-Term Liabilities Adjustment Fund will be used to convert governmental fund types' debt from modified accrual to full accrual.

Fiduciary Fund Types

Agency Funds

Agency funds are used to account for assets held as an agent for individuals, other government entities, and/or other funds. These funds are custodial in nature and do not involve measurement of results of operations.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual method basis of accounting. Under the modified accrual method, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified basis of accrual. Expenditures and other uses of financial resources are recognized when they related liability is incurred.

Budgets and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Assets, Liabilities, and Fund Balances/Net Assets

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Inventories

Inventories include consumable supplies and postage on hand at year-end. Inventories are valued at cost, generally using the last-in, first-out method. Inventories for governmental fund types are the purchase method of accounting. The consumption method of accounting is used to account for inventories that appear in governmental fund types. The cost of these items is expensed when the items are used or consumed.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost or, if not purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

Current Receivables – Other

Other receivables include year-end revenue accruals. This account can appear in governmental and proprietary fund types.

Non- Current Receivables – Other

There are no receivables not expected to be collected within one year.

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Current Payables-Others

Payables are the accrual at year-end of expenditures transactions. Payables may be included in either the government or proprietary fund types.

Non-Current Payables-Other

There are no payables not expected to be paid within one year.

Employees' Compensable Leave

Employees' compensable leave balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net position. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

FUND BALANCE/NET POSITION

Fund balance is the difference between fund assets and liabilities on the governmental fund statement.

Non-spendable

Fund balances for governmental funds include amounts that cannot be spent because they are either not in a spendable form or legally or contractually required to maintain intact.

Restricted

Represent resources with constraints placed upon the use of the sources by either externally imposed by creditors, grantors, contributors, law or regulations of other governments or imposed by law constitutional provisions or enabling legislation.

Committed

Fund balance amounts that can only be used for specific purposes pursuant to constraints imposed by the formal action of the state's highest level of decision-making authority (the Legislature). These amounts cannot be used for any other purpose unless the Legislature removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.

Assigned

Represent amounts constrained by the intent of an agency head or governing board to use the resources for specific purposes, and the amount is neither but are neither restricted nor committed.

Represent amounts that have not been restricted, committed or assigned to specific purposes.

The agency has the following types of transactions between funds:

Reimbursements: Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.

Interfund Sales and Purchases: Charges or collections for services rendered by one fund to another that are recorded as revenues of the recipient fund (interfund services provided) and expenditures or expenses of the disbursing fund (interfund services used).

The composition of the agency's interfund activities and transactions are presented in Note 12.

NOTE 5: Long Term Liabilities**Changes in Long-Term Liabilities**

During the year ended August 31, 2019, the following changes occurred in liabilities.

Governmental Activities	Balance 09-01-18	Additions	Reductions	Balance 08-31-19	Amounts Due Within One Year	Amounts Due Thereafter
Employee's Compensable Leave	\$27,905.03	\$28,269.52	\$16,142.14	\$40,032.41	\$26,850.41	\$13,812.00

Employees' Compensable Leave

If a state employee had continuous employment with the state for at least six months, the state employee is entitled to be paid for all unused vacation time accrued in the event of the employee's resignation, dismissal or separation from state employment.

Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the statement of net position. Both an expense and a liability for business-type activities are recorded in the proprietary funds as the benefits accrue to employees. No liability is recorded for non-vesting employees accumulating rights to receive sick pay benefits. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid.
